

A FLEXIBLE APPROACH TO GENERIC PRODUCT DEVELOPMENT

QPS IS A GLOBAL CRO WITH DIVERSE CAPABILITIES THAT OFFERS END TO END SERVICES TO GENERIC COMPANIES, enabling them to bring products to market in a faster and more compliant manner. With operations in India, USA, Europe and Taiwan, QPS is ideally positioned to address Sponsor's global generic product development requirements.

THE QPS ADVANTAGE

QPS has the experience and expertise to work with Sponsors in the global development of a diverse range of products from conventional generics to more complex products including modified release formulations, novel drug delivery systems for NCE-1, ANDA submissions.

Our comprehensive services include:

- ▶ Study Design
- ▶ Medical Writing
- ▶ Clinical Study Conduct
- ▶ Bioanalysis
- ▶ Data Management & CDISC
- ▶ PK & Statistical Analysis
- ▶ Final Report and Dossier Preparation

Our services for generic drug development include:

- ▶ BA/BE in healthy subject populations
- ▶ BA/BE in patient populations
- ▶ Clinical Endpoint Studies
- ▶ 505(b)2 NDA submissions

Clinical

Our Clinical Phase I units offer over 500 beds globally and can support a wide variety of clinical study designs:

Clinical Unit	# of Beds	Study Types
QPS Missouri	240	Healthy Human BA/BE
QPS India	138	Healthy Human BA/BE, Patient Pharmacokinetic Studies, Clinical Endpoint Studies
QPS Taiwan	40	Patient Pharmacokinetic Studies and Clinical Endpoint Studies
QPS Miami	106	Healthy Human BA/BE, Patient Pharmacokinetic Studies, Clinical Endpoint Studies

Bioanalysis

We offer state of the art GLP compliant bioanalysis at multiple global locations including India, USA, the Netherlands and Taiwan.

With over 46 LC-MS/MS systems installed globally and 800+ validated assays spanning all therapeutic areas including challenging and 'hard to develop' methods, we are positioned as the ideal partner for generic product development.

Credentials

All our global sites have an excellent regulatory track-record with multiple inspections by various agencies including US FDA, EMA, UK MHRA, WHO and CEB, resulting in numerous product approvals for our Sponsors.

QPS is your ideal CRO partner for generic product development and can also assist in understanding the regulatory requirements of different countries for generic drug approval. QPS can partner with your product development groups in taking you from study design to the final dossier for regulatory submission.

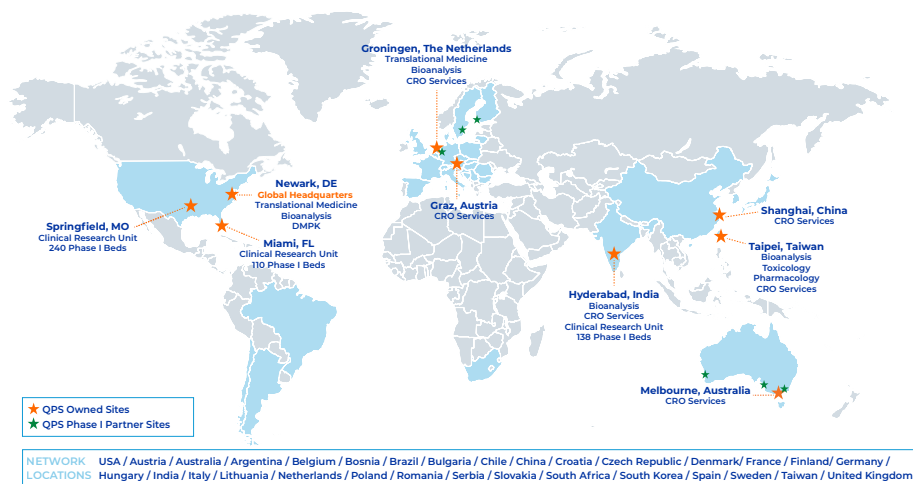

QPS IS A GLOBAL CRO WITH LOCATIONS AROUND THE WORLD

BENEFIT FROM THE RESOURCES OF A GLOBAL CRO

Whether your focus is small molecules, protein biotherapeutics, vaccines, gene therapy or cell therapy, QPS provides a full range of bioanalytical services to support drug development needs from discovery, through clinical development and regulatory filing.
