

A FLEXIBLE APPROACH TO CUSTOM-BUILT RESEARCH

AT QPS WE BELIEVE IN DEVELOPING
CLOSE AND LONG-LASTING
RELATIONSHIPS WITH OUR CLIENTS. Mutual
trust, combined with the agile and flexible approach
we offer as a specialty CRO, improves the quality of
your outsourced drug development projects.

QPS CORPORATE OVERVIEW

QPS was founded in 1995. Today, the company is considered one of the top CROs in the world. QPS is a GLP/GCP-compliant contract research organization (CRO) supporting discovery, preclinical and clinical drug development. QPS provides quality services to pharmaceutical and biotechnology clients worldwide. Join the many companies that count on QPS' global team of qualified and experienced professionals to deliver drug discovery and development programs in the following service areas:

Pharmacology

Toxicology

DMPK

Bioanalysis

Translational
Medicine

Clinical
Development

PHARMACOLOGY

The QPS team of pharmacology experts offers an array of predictive disease models across a variety of species. Study types include efficacy (*in vivo* and *in vitro*), safety, pharmacokinetics (PK), pharmacodynamics (PD) and custom formulations.

TOXICOLOGY

Over the past three decades, QPS has performed thousands of GLP studies for pharmaceutical and biotech companies, covering many different disease areas and therapies. Studies include reproductive and genetic toxicity as well as development studies. This vast experience attests to our ability to effectively deliver high quality data solutions at our preclinical site in Taiwan.

DMPK

Studies determining absorption, distribution, metabolism and excretion (ADME) characteristics of drug candidates are an integral part of the QPS drug metabolism and pharmacokinetics (DMPK) services.

BIOANALYSIS

QPS is built on a worldwide network of resources in bioanalysis for small molecules and biologics, with state-of-the-art facilities in the US, Europe, Asia and India. Find out how a strategic outsourcing alliance with QPS can provide you with world class operational and service excellence.

TRANSLATIONAL MEDICINE

QPS offers specialized biomarker assay capabilities that support the development of targeted therapies and personalized medicines. QPS is a leader in Gene Expression Translation and utilizing Genotyping to accelerate pharmaceutical breakthroughs.

CLINICAL DEVELOPMENT

For more than 30 years, QPS' clinical research sites have collectively completed thousands of clinical trials involving tens of thousands of healthy volunteers and patients. We offer industry-leading early and late phase clinical capabilities, featuring more than 500 Phase I beds and 700+ partner sites across the US, Europe and Australia. Our experience spans complex, first-in-man and proof of concept (POC) programs up to global Phase II-IV studies.

ADDITIONAL SERVICES

In addition to the full service CRO offerings above, QPS also offers clinical trial kitting services, central safety laboratory services, PBMC processing and DEXA scanning.

SCIENTIFIC LEADERSHIP AND PROVEN RESULTS

Dr. Benjamin M. Chien founded QPS in 1995 to provide high quality bioanalytical LC-MS/MS contract services. Since then, QPS has grown to more than 1,200+ employees in the United States, Europe, Asia, India and Australia. Over the years, the company has developed custom-built research services, including:

- ▶ Preclinical (Toxicology, Pharmacology and DMPK)
- ▶ Bioanalysis and Translational Medicine
- ▶ Clinical Trial Conduct
- ▶ Clinical Research Services
- ▶ Medical and Regulatory Affairs
- ▶ Central Laboratory Services
- ▶ PBMC processing and DEXA Scanning

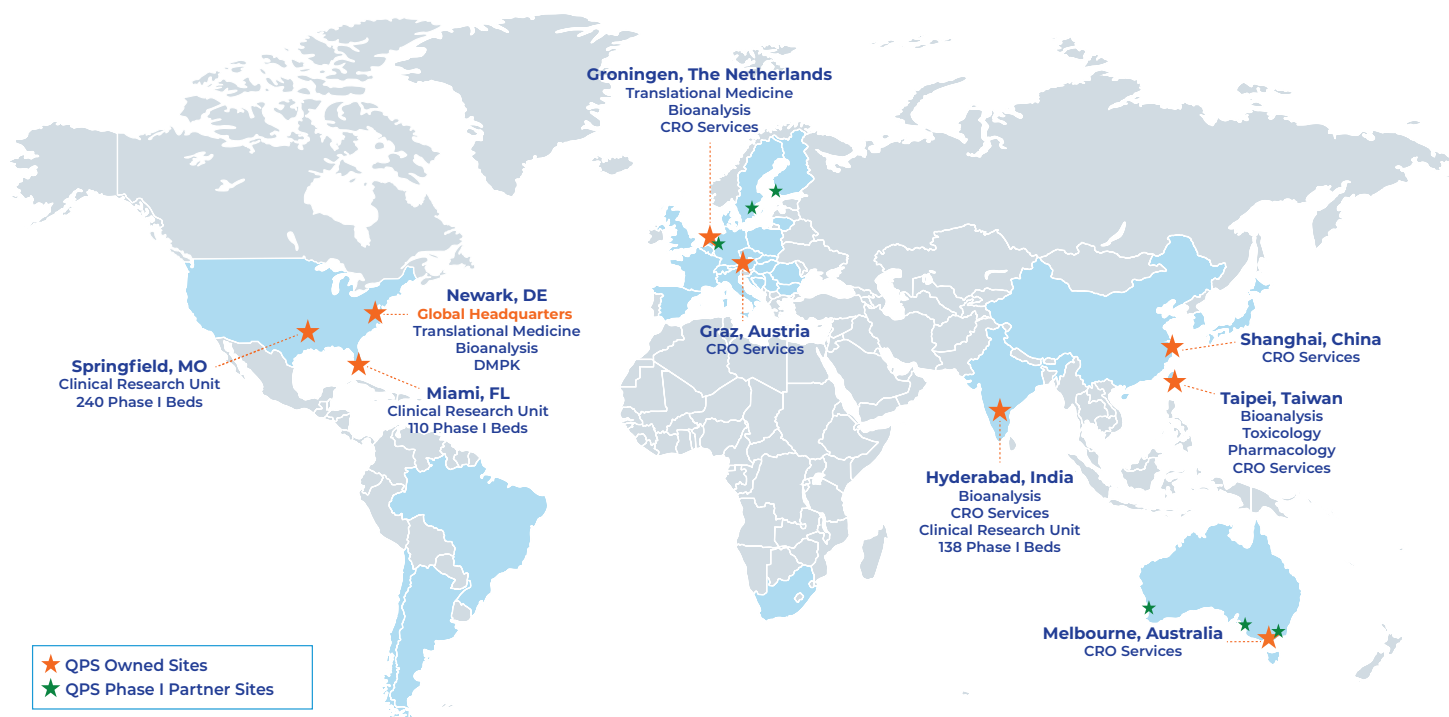

QPS IS A GLOBAL CRO WITH LOCATIONS AROUND THE WORLD

BENEFIT FROM THE WORLDWIDE RESOURCES THAT A GLOBAL CONTRACT RESEARCH ORGANIZATION BRINGS

Whether your focus is small molecules, protein biotherapeutics, vaccines, gene therapy or cell therapy, QPS provides a full range of bioanalytical services to support drug development needs from discovery, through clinical development and regulatory filing.

NETWORK LOCATIONS USA / Austria / Australia / Argentina / Belgium / Bosnia / Brazil / Bulgaria / Chile / China / Croatia / Czech Republic / Denmark / France / Finland / Germany / Hungary / India / Italy / Lithuania / Netherlands / Poland / Romania / Serbia / Slovakia / South Africa / South Korea / Spain / Sweden / Taiwan / United Kingdom
